THE FEI CODE OF CONDUCT FOR THE WELFARE OF THE HORSE

The FEI requires all those involved in international equestrian sport to adhere to the FEI Code of Conduct and to acknowledge and accept that at all times the welfare of the Horse must be paramount. Welfare of the Horse must never be subordinated to competitive or commercial influences. The following points must be particularly adhered to:

1. General Welfare:

a) Good Horse management

Stabling and feeding must be compatible with the best Horse management practices. Clean and good quality forage, feed and water must always be available.

b) Training methods

Horses must only undergo training that matches their physical capabilities and level of maturity for their respective disciplines. They must not be subjected to methods which are abusive or cause fear.

c) Farriery and tack

Foot care and shoeing must be of a high standard. Tack must be designed and fitted to avoid the risk of pain or injury.

d) Transport

During transportation, Horses must be fully protected against injuries and other health risks. Vehicles must be safe, well ventilated, maintained to a high standard, disinfected regularly and driven by competent personnel. Competent handlers must always be available to manage the Horses.

e) Transit

All journeys must be planned carefully, and Horses allowed regular rest periods with access to food and water in line with current FEI guidelines.

2. Fitness to compete:

a) Fitness and competence

Participation in Competition must be restricted to fit Horses and Athletes of proven competence. Horses must be allowed suitable rest period between training and Competitions; additionally rest periods should be allowed following travelling.

b) Health status

No Horse deemed unfit to compete may compete or continue to compete; veterinary advice must be sought whenever there is any doubt.

c) Doping and Medication

Any action or intent of doping and illicit use of medication constitutes a serious welfare issue and will not be tolerated. After any veterinary treatment, sufficient time must be allowed for full recovery before Competition.

d) Surgical procedures

Any surgical procedures that threaten a competing Horse's welfare or the safety of other Horses and/or Athletes must not be allowed.

e) Pregnant/recently foaled mares.

Mares must not compete after their fourth month of pregnancy or with foal at foot.

f) Misuse of aids

Abuse of a Horse using natural riding aids or artificial aids (e.g. whips, spurs, etc.) will not be tolerated.

FEI Code of Conduct for the Welfare of the Horse

3. Events must not prejudice Horse welfare:

a) Competition areas

Horses must be trained and compete on suitable and safe surfaces. All obstacles and Competition conditions must be designed with the safety of the Horse in mind.

b) Ground surfaces

All ground surfaces on which Horses walk, train or compete must be designed and maintained to reduce factors that could lead to injuries.

c) Extreme weather

Competitions must not take place in extreme weather conditions that may compromise welfare or safety of the Horse. Provision must be made for cooling conditions and equipment for Horses after competing.

d) Stabling at Events

Stables must be safe, hygienic, comfortable, well ventilated and of sufficient size for the type and disposition of the Horse. Washing-down areas and water must always be available.

4. Humane treatment of Horses:

a) Veterinary treatment

Veterinary expertise must always be available at an Event. If a Horse is injured or exhausted during a Competition, the Athlete must stop competing and a veterinary evaluation must be performed.

b) Referral centres

Wherever necessary, the Horse should be collected by ambulance and transported to the nearest relevant treatment centre for further assessment and therapy. Injured Horses must be given full supportive treatment before being transported.

c) Competition injuries

The incidence of injuries sustained in Competition should be monitored. Ground surface conditions, frequency of Competitions and any other risk factors should be examined carefully to indicate ways to minimise injuries.

d) Euthanasia

If injuries are sufficiently severe a Horse may need to be euthanised by a veterinarian as soon as possible on humane grounds, with the sole aim of minimising suffering.

e) Retirement

Horses must be treated sympathetically and humanely when they retire from Competition.

5. Education:

The FEI urges all those involved in equestrian sport to attain the highest possible levels of education in areas of expertise relevant to the care and management of the Competition Horse.

This Code of Conduct for the Welfare of the Horse may be modified from time to time and the views of all are welcomed. Particular attention will be paid to new research findings and the FEI encourages further funding and support for welfare studies.

The starting order of the teams will be drawn in groups of five (5), based on the ~~FEI World Team Ranking list or, if not existing, by adding up the average of the~~ points of the participating team Athletes on the FEI Individual World Ranking list. The Chef d'Equipes will determine the order to go of the team members within his team. They must declare the order to go within their team at the latest one (1) hour before the draw in a sealed envelope.

The starting list is made up with the individual Athletes placed in the positions which they have drawn. The team Athletes are then inserted in sequence in the remaining positions according to the order of go one to four (1-4) as declared by the Chef d'Equipes.

The final result for each team should be given in the form of a percentage score with numbers to three (3) places after the decimal point. In the case of equality of percentages the winning team is the one whose lowest classified team Athlete in the Grand Prix Special has the best result in the Grand Prix Special. If still tied the same rule will be applied to the second (2nd) lowest classified Athlete in the Grand Prix Special and so on. For teams placed seventh (7th) to tenth (10th) the same rules are applied for the Grand Prix.

5.2 Individuals

Only the FEI Grand Prix Freestyle Competition counts towards the final Individual classification.

The winning individual Athlete is the one (1) with the highest total percentage in the Grand Prix Freestyle Competition. The second placed individual Athlete is the one (1) with the next highest total percentage in the Grand Prix Freestyle, and so on. Percentage scores are given with numbers to three (3) places after the decimal points.

If two (2) Athletes have the same final score, the higher artistic marks in the FEI Grand Prix Freestyle will decide for the better placing. If still tied the higher marks for harmony shall decide. If still tied the higher marks for choreography shall decide.

8.1.2 Teams

- (i) Round Two (final round) of the Team Competition is open only to the eighth best placed teams and those teams equal on penalties for eighth place in Round One (qualifying round) of the Team Competition. Teams withdrawing from Round Two of the Team Competition will not be replaced.

Chapter IV - Jumping

- (ii) All teams allowed to compete in Round two (final round) of the Team Competition carry their penalties forward from Round One (qualifying round) of the Team Competition. The score obtained in Round Two (final round) by members of Teams who are not among the Athletes eligible to compete in the Third Individual Qualifying Competition as mentioned above, count only for the classification of their respective teams.

8.2 Starting Order

8.2.1 Individuals

The starting order of the Individuals qualified to compete as mentioned hereinabove is set according to the reverse order of the aggregate penalties incurred in the First and the Second Individual Qualifying Competitions. In case of a tie on penalties Athletes retain the same starting order as in the Second Individual Qualifying Competition (round one of the team Competition).

8.2.2 Teams

The starting order of the Teams qualified to compete as mentioned hereinabove is set according to the reverse order of penalties incurred in the Round one (qualifying round) of the Team Competition. Teams with equality of the penalties retain the starting order of Round one (qualifying round) of the Team Competition. In case one member of a team does not participate in the second round, the remaining team members must retain the same order of starting within their team as in the first round.

Score of individuals who are members of any team eligible to participate in Round Two (final round) as provided herein above will count for the classification of their team in the Team Competition but also as their personal result in the Third Qualifying Competition if they are among the Athletes mentioned in paragraph above.

9. FOURTH COMPETITION DAY: Final Individual Competition

9.1 Conduct, Tables and Speed

This Competition is conducted over two (2) rounds (A) and (B) each judged under Table A not against the clock with a jump-off, with a time allowed at a speed of 400 metres per minute (see FEI Jumping Rules). At the discretion of the Technical Delegate, depending on the size of the arena, the speed may be reduced to 375 metres per minute.

9.2 Obstacles, Length of the Course

9.2.1 Round A

Ten (10) to twelve (12) obstacles including one (1) double and one (1) treble or three (3) doubles. Height 1.40 metres to 1.60 metres maximum with a spread in proportion to the height. A maximum of two spread obstacles with a width of one metre or less may be used; all other spread obstacles must have a width between 1.50 metres and 2.00 metres (2.20 metres for the triple bar). There must be two vertical obstacles of 1.60 metres (sloping walls do not count as compulsory vertical obstacles). A water jump with a width of water not less than 4.30 metres and not greater than 4.50 metres (including the take-off element) must be included.

Length: 500 metres minimum, 600 metres maximum.

9.2.2 Round B

Chapter IV - Jumping

Round B is over a different course of ten (10) obstacles including a double and a treble. The height of the obstacles may be from 1.40 metres to 1.60 metres with their spread proportionate to their height but not exceeding 2 metres (2.20 metres for the triple bar). A maximum of two (2) spread obstacles with a width of 1 metre or less may be used. There must be one (1) vertical obstacle and one spread obstacle of 1.60 metres in height. If the spread obstacle of 1.60 metres in height comprises parallel top elements, its spread may not exceed 1.70 metres. The water jump as described under round A is optional. (Refer to Article 630. 3.2.2 of Chapter IV).

Length: 450 metres minimum, 500 metres maximum.

The jump-off is over a shortened course of at least six (6) obstacles taken from both rounds.

9.3 Participation

9.3.1 Round A

Round A of this Competition is compulsory for the thirty five (35) best placed Athletes and Horses (including those with equality of penalties for thirty fifth (35th) place) according to the cumulative penalties over the first (1st) and second (2nd) Competition. For those individuals and members of teams not qualified for the second (2nd) round of the Team Competition their score in the second (2nd) round qualifier will count.

Participants must have taken part in the First Qualifying Competition (completed or not) and have completed both rounds of the Team Competition (without having been eliminated or having retired).

If for any reason one or more of these thirty five (35) best placed Athletes are unable to start, they are replaced by Athletes from the reserve list of Athletes.

Not more than three (3) Athletes from any one nation may take part in this Competition. In case four Athletes from one nation are within the top thirty five (35) Athletes, the three best placed Athletes from the nation(s) in question will participate in the Individual Final (the fourth (4th) Athlete from the same NOC cannot be included on the reserve list of Athletes for the Final Individual Competitions). If two (2) Athletes tie for third place the Chef d'Equipe decides which of the two (2) Athletes will participate in this Competition.

Participants start in Round A of the Individual Final competition with zero (0) penalties.

9.3.2 Round B

Round B of this Competition is open to the twenty (20) best placed Athletes from Round A, including those with equality of penalties for twentieth (20th) place.

9.3.3 Inspecting the Course B

Athletes will be invited to inspect the course for Round B at the conclusion of Round A.

Chapter IV - Jumping

9.4 Starting Order

9.4.1 Round A

The starting order for Round A follows the reverse order of penalties incurred in the first, second and third qualifying Competitions of the Games. In the event of equality of penalties, the same starting order as in the second round of the Team Competition (third Individual Qualifying Competition) is used to decide the order of go for those Athletes. The thirty fifth (35th) qualified Athlete will, therefore, start as number one (1).

9.4.2 Round B

The starting order for Round B follows the reverse order of the penalties incurred in Round A. The Athlete with the most penalties starts first (1st), the Athlete with the least penalties starts last. Athletes with equality of penalties retain the same starting order as in Round A.

9.4.3 Jump-off

The starting order in the jump-off is according to the same order as Round B.

If more than one (1) jump-off is required to decide medal placing, the jump-off for the third place takes place before the jump-off for the first and the second place.

In case of equality of penalties and time for any of the medal placing after the first (1st) jump-off, there is a second jump-off over the same course. In case of equality of penalties and time after the second (2nd) jump-off, the Athletes concerned are placed equal.

9.5 Individual Placing

The individual placing is determined by adding together for each Athlete the penalties incurred in Rounds A and B and, if necessary, the penalties and time incurred in the jump-off.

10 Horse Inspections

Horse Inspections will be carried out in accordance with Veterinary Regulations. Nations will present themselves in alphabetical order according to the IOC abbreviations, and by Horse number within each team.

The First Horse Inspection will take place the day before the training session. The re-inspection will take place on the following morning prior to the training session.

The Second Horse Inspection will take place the day prior to the Final Individual Competition
